

# COVID 19 - SPECIAL NOTICE

03/24/20

## Store and Warehouse Access Update

Following the March 23rd announcement from the Ontario Provincial Government and the associated list of “essential businesses” that was published, we have made some decisions about how we will operate our business moving forward.

Our understanding is that The Wood Source falls under item 28 on the government list. This states that **Construction Work and Services in the Industrial, Commercial, Institutional and Residential sectors** are included as essential. However, as an appropriate step to cater to this customer base, while at the same time protecting our staff, we have taken the decision **to close our physical storefront and warehouse** to the public.

**We will remain open for business via call-in or emailed orders for both delivery and pick up.** We are able to issue pricing via these communication tools and wish to continue to support our partners in the building industry.

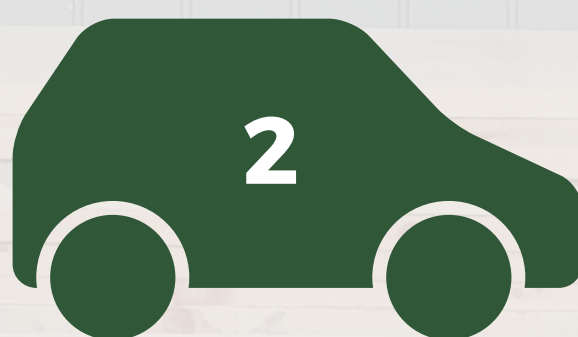

Thanks for your understanding at this exceptional time.

WOODSOURCE MANAGEMENT

## How to Get Your Materials

Call/email in  
your order before you  
come to the store

Call us from the  
parking lot  
(or schedule a delivery)

Receive your  
material
